It is the collision of traditional technology and modern science and technology, and also the representative of Chinese spirit in home life.

## 银器 Silverware

淡淡的白，浅浅的素，一直受到爱美人士的追捧，它亲和而不张扬，自有一种淡然孤傲的美。既优雅而有质感的银器在中国有了数千年的文化。

美术家资深银匠把银经过融化银、浇铸毛坯、打叶出条拉丝、冲压出形、錾花、焊接、打磨抛光、去污、点蓝上翠、镶嵌这10道工序，一块块精美的银饰地板就呈现出来了。

A touch of white, shallow, has always been sought after by the beauty of the people, it is friendly and not publicity, has a light and arrogant beauty. The elegant and textured silverware has a culture of thousands of years in China. The senior silversmith of the artist puts the silver through silver melting, casting blanks, drawing leaves, drawing, punching, stenciling, welding, polishing, decontamination, blue and green, inlaying these 10 steps, a piece of exquisite silver The floor is presented.

## 沁染 Dyeing

将天然木皮进行染色处理，保留了天然木材原有的自然质感和纹理，在加工过程重弥补了天然木皮存在色差、色泽单一等缺陷，同时还能通过改变颜色形成时尚新颖的新款式。

染色木皮有“源于自然、胜于自然”之说。美术家地板利用其可以重新还原各种稀有珍贵木材等特点，让很多消费者不必承受昂贵的费用就可以完成把各种甚至已灭绝的树种制品搬回家的愿望。

The natural veneer is dyed, and retains the original natural texture and texture of the natural wood. In the process of processing, it compensates for the defects of the natural veneer, such as color difference and single color. At the same time, it can form a fashionable new style by changing the color. Dyed veneer has the meaning of “derived from nature, better than nature”. The artist's floor can be used to re-restore various rare and precious woods, so that many consumers can fulfill the desire to move all kinds of extinct tree products without having to bear expensive expenses.

## 宝石 Jewelry

宝石是岩石中最美丽而贵重的一类石。它们颜色鲜艳，质地晶莹，光泽灿烂，坚硬耐久，同时赋存稀少。

美术家地板中使用的宝石镶嵌产品，往往是作为辅助银器、嵌钻产品的角色出现，使地板更具高贵品质。让使用者更显雍容华贵。

Gemstones are the most beautiful and precious type of rock in the rock. They are bright in color, crystal clear, shiny, hard and durable, and rare. The gem-set inlays used in the floor of the artist often appear as a role in the auxiliary silverware and inlaid diamond products, making the floor more noble. Make users more elegant and luxurious.

## 化变 Chemical reaction

通过对木地板板材表面作涂刷能快速渗入木材纤维，与其自身所含的单宁酸产生一系列的交联反应来改变木材原有的颜色，使板材表面形成古旧沧桑感，经过处理后的板材具有颜色一致，观感自然，纹理清晰，层次感强，不易褪色等优点。

美术家地板利用其可以变化的特点，保留结疤、裂缝、虫眼等木材特征，顺势而为的去呈现木之美，还原木头本来的面貌。

Through the brushing of the surface of the wooden floor board, the wood fiber can be quickly infiltrated, and a series of cross-linking reactions are formed with the tannic acid contained therein to change the original color of the wood, so that the surface of the board forms an old vicissitude, after being treated. The plates have the same color, natural texture, clear texture, strong layering, and are not easy to fade. The artist's floor uses its versatile features to retain the wood features such as scars, cracks, and insects, and to follow the trend to present the beauty of the wood and restore the original appearance of the wood.
